

April 17, 2018

Dear Participants and Jury Members:

It was my privilege to be involved in judging the “**Black Sea Science 2018**” student competition. I was truly impressed with the quality of the submissions and the variety of covered topics which were in sync with the top technology trends. The winning submissions are offering practical and novel solutions to the problems which industry is facing now. It is an immense pleasure to witness the continuity of support of student’s innovation and scientific curiosity inherent in Ukrainian academia.

Sincerely,

A handwritten signature in blue ink that reads "Oleg Medvedev". The signature is written in a cursive style with a large initial 'O'.

Dr. Oleg Medvedev, PhD, PMP, PEng
